

THESE ARE OUR
4 VALUES OF...

BY
SALIM GOMRI

Agile Manifesto

one

Individuals and their interactions (with or without AI)

over processes, even automated ones, and AI tools

two

Working software co-created

over comprehensive documentation, even AI-generated

three

Customer collaboration, AI-augmented or not

over contract negotiation, even automated ones

four

Responding to change

over following a plan, even one predicted by AI

THESE ARE OUR
10 PRINCIPLES OF...

BY
SALIM GOMRI

Algile Manifesto

one

Take an AI-augmented economic view

six

Visualize and limit WIP with AI insights

two

Apply AI-assisted systems thinking

seven

Apply cadence and sync using AI

three

Embrace variability with AI-enabled options

height

Unlock intrinsic motivation, amplified by AI

four

Build incrementally with AI-enhanced feedback loops

nine

Decentralize decisions, enriched by AI data

five

Base milestones on systems suggested by AI, validated by humans

ten

Organize around value with augmented teams
